NACE business	91.11.00 Employers and business associations
----------------------	--

Export area	Worldwide
--------------------	-----------

Purpose	<p>The aim of the association is to promote Danish exports of marine and offshore products and common system solutions, and to take part in serving potential new business opportunities, including through liaison meetings, export networks and joint export drives and promotional activities, including organising and implementing national stands at international exhibitions.</p> <p>The association will through member meetings provide experience exchange and cooperation between small and large businesses, so members can inspire each other to new developments and contribute to the personal network formation. The association will enhance the members' knowledge and skills through courses, conferences and symposia.</p> <p>It is the association's aim to make contact with other industry associations, public authorities and similar associations and institutions at home and abroad. Furthermore, the association aims to contribute the association and its members to become and stay well known and respected in Denmark and internationally as representing the serious part of the industry.</p>
